GENERAL CATALOGUE

Giovanni Franchi

LA STORIA

Dopo oltre un secolo di storica attività nel rispetto delle tradizioni agricole dell'epoca, è nel 1920 che l'impulso professionale di Giovanni Franchi, coadiuvato dal proprio figlio Pietro, Cavaliere del Lavoro al Merito Agricolo, avvia la produzione di sementi di alta selezione su moderna scala industriale nel nuovo insediamento di Bergamo. E con gli anni 30 inizierà per la Franchi Sementi l'espansione verso i mercati esteri.

Pietro Franchi

THE HISTORY

After more than one century of storical and traditional agricoltural activity, in 1920 the professional impulse of the great grandchild Giovanni Franchi assisted, by is son Pietro the Chevalier of the Labour for Agricultural Merit, starts the production of seeds of high grade on a modern industrial scale in Bergamo and in the thirties the expansion toward foreing markets will start for Franchi Sementi.
